Presidents Message

Hello, I'm John Loewen, founder of Icon Technologies Limited. Over the past 30 years I've been involved in the design, manufacturing and marketing of thousands of products... for the transportation and recreational vehicle industry.

Our Company has a very integrated marketing model, using our website, social media and traditional distribution to build our brands. Consumers, OEM's and resellers use our website to source products and specifications. Many of our aftermarket products are too unique and model specific for traditional distribution, but can be ordered at www.IconDirect.com, and easily shipped anywhere in North America, usually within five business days.

If you are a new customer, you can be assured that every purchase will meet or exceed your expectation, or we'll simply and gladly refund your purchase. Guaranteed!

Our business model is to produce products in North America for North America.

I would like to thank the thousands of on & offline customers for their loyalty and support.

PAYS FOR ITSELF IN ONE LONG TRIP

- Increased fuel Mileage by up to 3 MPG
- Improve the Stability and Handling of your vehicle
- Virtually eliminate Road Debris and Bugs on the front of your trailer

The AeroShield comes completely assembled, ready for quick installation on any vehicle using the appropriate installation kit (included). It can be adjusted to virtually any angle, creating maximum aerodynamic efficiency by directing air over the top and sides of your trailer. It quickly and easily folds flat when not in use. In the flat position, the AeroShield deflects the wind, reducing tailgate drag. Made of ultra strong polymer material and aircraft aluminum, the AeroShield is designed to flow with the lines of your vehicle. You can paint the AeroShield to match your vehicle.
